A Summary of Uniform Crime Report Data

Wayne Stenehjem Attorney General

Prepared by Colleen Weltz UCR Program Manager 2005

INTRODUCTION

The North Dakota Uniform Crime Reporting (UCR) program involves the collection, compilation, and analysis of crime and arrest statistics reported by the various local law enforcement agencies throughout the state. Forty-three sheriffs' departments and 32 police departments reported to the UCR program in 2004.

Law enforcement agencies may report UCR data in two ways:

INCIDENT-BASED REPORTING: Law enforcement agencies use a standard incident form to collect data on each incident reported to their respective agencies. This form collects much more detailed information than is collected using summary reporting. Data collected includes: type of incident, where and when the incident took place, victim characteristics, suspect/arrestee characteristics, property involved in the incident, etc. A total of 72 police departments and sheriffs' departments reported incident data for all or part of 2004.

In order to continue the statistical time-series begun with summary reporting, computer programs were written to extract summary data from the incident data reported. <u>Crime in North Dakota</u>, 2004 is a report on summary data.

SUMMARY REPORTING: Law enforcement agencies use a tally system to report the number of crime index offenses and arrests for each month. Three law enforcement agencies reported summary data in 2004.

The federal counterpart of the North Dakota UCR program is the National UCR program under the direction of the Federal Bureau of Investigation (FBI). The UCR program has been used nationally and in North Dakota for many years to measure the extent, distribution and fluctuation of crime through the crime index. The crime index is not an absolute measure, but rather an indication of the amount and type of crime occurring in any given jurisdiction. The index is composed of seven crimes that are sub-classified as follows:

VIOLENT CRIME: Murder/Non-Negligent Manslaughter

Forcible Rape Robbery

Aggravated Assault

PROPERTY CRIME: Burglary

Larceny/Theft

Motor Vehicle Theft

A Modified Crime Index is also calculated at the federal level. This includes arson as the fourth property crime and the eighth index offense. Data on arson is not included in this report.

Prior to an offense becoming recorded in the UCR program, it must be reported to the local law enforcement officials and reported by the local agency to the UCR program. Consequently, the UCR program only reflects reported crimes. Reporting of crimes depends on several factors,

including actual perception of an act as a crime, the probability of loss of status for reporting (as in cases of rape), and the perceived probability of action on the part of the law enforcement agency contacted.

Several types of data are gathered, including:

Offense data

Number of known crime index offenses
Type and value of stolen property
Additional information on homicides and arson
Law enforcement officers killed or assaulted

Arrest and Clearance Data

Number and type of offenses cleared Number and type of index offenses involving juveniles cleared Number of persons arrested, by offense Characteristics of persons arrested (age, sex, race)

To allow for comparison among several geographic or jurisdictional areas with differing populations or to allow comparisons across time in an area undergoing population fluctuations, the UCR program provides for the calculation of crime rates to remove any potential biases created by population differences. Because a rate relates the incidence of activity to population, it is possible to measure annual fluctuations in criminal activity by comparing rates of crime reported in any given year with those reported in other years. National publications report crime rates calculated based on the number of reported offenses per 100,000 population. This publication provides crime rate information calculated in the same manner.

NORTH DAKOTA CRIME SUMMARY, 2004

In 2004, 12,073 crime index offenses were reported by local law enforcement agencies. This is a decrease of 7.2 percent from the total of 13,015 reported in 2003.

Crime index offenses include: murder/non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny/theft, and motor vehicle theft.

The Census Bureau estimate of North Dakota's population for 2004 is 634,500. The index crime rate per 100,000 population for 2004 was 1902.8. The index crime rate for 2003 was 2052.8 per 100,000 population. This is a 7.3 percent decrease in the crime rate.

The total number of reported violent index crimes (murder, rape, robbery, and aggravated assault) was 528. This represents an increase of 5.8 percent from the total of 499 reported in 2003. In 2002, 553 violent index crimes were reported.

Violent crime accounted for 4.4 percent of total index crimes reported in 2004.

Collectively, property crimes (burglary, larceny/theft and motor vehicle theft) decreased by 7.8 percent from 12,516 reported in 2003 to 11,545 reported in 2004.

Property crime accounted for 95.6 percent of total crime index offenses reported in 2004.

The 8,832 larceny/theft offenses reported in 2004 accounted for 73.2 percent of total index crimes.

More than \$10.9 million worth of property was reported stolen in 2004, with 35.9 percent of that amount reported as recovered by law enforcement officials.

North Dakota law enforcement agencies reported 29,372 arrests in 2004. A total of 30,334 arrests was reported in 2003.

In 2004, juvenile arrests accounted for 21.7 percent of the total arrests. Juvenile arrests were 41 percent of the total arrests of crime index offenses.

The number of reported arrests in 2004 for DUI increased to 5,766 from 4,854 reported in 2003.

Arrests for drug offenses increased 0.6 percent from a 2003 total of 2,045 to 2,057 in 2004.

CRIME INDEX OFFENSE ANALYSIS

Crime Index Offenses

Crime index offenses include the violent crimes of murder/non-negligent manslaughter, forcible rape, robbery, and aggravated assault, and the property crimes of burglary, larceny/theft, and motor vehicle theft.

In 2004, 12,073 crime index offenses were reported by local law enforcement agencies. This is a decrease of 7.2 percent from the total of 13,015 reported in 2003.

The Census Bureau estimate of North Dakota's population for 2004 is 634,500. Based on that total, the index crime rate per 100,000 population for 2004 was 1902.8, as compared to 2052.8 for 2003. See the crime index offense summary on page 5 for crime rate information for the period 1995-2004.

Nearly 20 percent of crime index offenses were reported as cleared by arrest or exceptional means. The UCR program defines an offense as "cleared" by law enforcement when at least one person is arrested, charged with the commission of the offense, and turned over to the court for prosecution. Several crimes may be cleared by the arrest of one person, while the arrests of many persons may clear only one offense. Law enforcement agencies may clear a crime by exceptional means when some element beyond law enforcement control precludes the placing of formal charges against the offender. Examples of circumstances that allow such clearances are the death of the offender (suicide, justifiably killed by police or private citizen, etc.); the victim's refusal to cooperate with prosecution after the offender has been identified; or the denial of extradition.

In 2004, 2,613 arrests were reported for crime index offenses. Of that total, 41 percent were arrests of juveniles.

More than \$10.9 million worth of property was reported stolen in 2004, with 35.9 percent of that amount reported as recovered by law enforcement officials.

Violent Crime

Violent crime includes the offenses of murder/non-negligent manslaughter, forcible rape, robbery, and aggravated assault. (See the UCR offense definitions section beginning on page 57 of this publication for definitions of these and other offenses.)

In 2004, 528 violent crimes were reported in North Dakota. This is a 5.8 percent increase from the 2003 total of 499 violent offenses reported. In 2002, 553 violent crimes were reported.

Violent crime comprised 4.4 percent of reported crime index offenses in North Dakota in 2004.

The violent crime rate for 2004 is 83.2 per 100,000, as compared to 78.7 per 100,000 in 2003. This is a 5.7 percent increase in the violent crime rate. In 2002, the violent crime rate was 87.2 per 100,000 population.

Approximately 50 percent of violent crimes in 2004 were reported as cleared by arrest or exceptional means.

Of the 385 total arrests reported for violent crimes, 25.5 percent were arrests of juveniles.

Murder/Non-Negligent Manslaughter

The UCR program defines Murder/Non-Negligent Manslaughter as the "willful killing of one human being by another." Not included in this category are attempts to murder, assaults to murder, suicides, accidental deaths, justifiable homicides, and deaths caused by gross negligence.

Ten murder/non-negligent manslaughter deaths were known to the North Dakota UCR program in 2004.

Seven of the ten victims were adults. "Adult" is defined as a person aged 18 years or older.

Seven of the victims were male.

Five of the ten victims died as the result of gunshot wounds. (See the summary of homicide incidents and the weapons involved on page 10.)

The Office of Attorney General publishes a detailed report titled <u>Homicide in North Dakota</u>. The report provides an analysis of homicides for the period 1978-2004 and is available on our website at www.ag.state.nd.us, under the Reports and Statistics link.

Forcible Rape

The UCR program defines Forcible Rape as "the carnal knowledge of a female forcibly and against her will." Assaults to rape, attempts to commit rape by force or threat of force are included. Carnal abuse, statutory offenses (no force -- victim under age of consent), and other sex offenses are not included.

In 2004, 157 forcible rapes were reported to local law enforcement in North Dakota. This is an increase of 9.8 percent from the 2003 total of 143 offenses. A total of 167 forcible rapes were reported in 2002.

Because the UCR definition states that victims of rape must be female, the rate of occurrence for reported rapes is calculated based only on the female population. The Census Bureau estimate of North Dakota's population for 2004 is 634,500. The number of females is approximately half of that figure. The resulting rate for 2004 is 49.5 reported rapes per 100,000 females, compared with 45.1 rapes per 100,000 females in 2003. In 2002, the forcible rape rate was 52.7 per 100,000 females.

In 2004, 40.1 percent of reported rapes were cleared by arrest or exceptional means.

Forty-four arrests for forcible rape were reported in 2004. Approximately 79 percent of those arrested were adults. In 2003, 40 arrests for rape were reported.

Larceny/Theft

The UCR program defines Larceny/Theft as the "unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. It includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc., in which no use of force, violence or fraud occurs. In the Uniform Crime Reporting program, this crime category does not include embezzlement, confidence games, forgery, and worthless checks. Motor vehicle theft is also excluded from this category inasmuch as it is a separate crime index offense."

A total of 8,832 larceny/theft offenses was reported in North Dakota in 2004. This is a 8.9 percent decrease from the 2003 total of 9,700.

The larceny/theft rate per 100,000 population was 1392.0 compared with 1530.0 in 2003, a 9 percent decrease in the rate.

Twenty percent of larceny/theft offenses were cleared by arrest or exceptional means in 2004.

The number of arrests for this offense decreased from 1,924 in 2003 to 1,830 in 2004. Approximately 43 percent of those arrested for larceny/theft in 2004 were juveniles.

More than 4.6 million dollars worth of property was reported stolen as the result of larceny/theft offenses in the state. The average dollar value per offense is \$530.

Larceny/theft accounted for 73.2 percent of the total index offenses reported and amounted to nearly 43 percent of the total value of stolen property.

ARREST ANALYSIS

Arrests in 2004

Although primarily an indication of law enforcement activity, the number of arrests reported does provide a limited profile of the perpetrators of crime, especially for those crimes that have high clearance rates. Differing arrest practices, policies, and enforcement emphases among agencies influence the volume of arrests for various offenses, particularly those against public order such as vagrancy, disorderly conduct, and related violations. However, arrests for serious crimes, e.g., robbery or burglary, are more likely to be uniform throughout all jurisdictions across the state.

The UCR program requires that an arrest be counted for each separate occasion an individual is taken into custody. Although several charges may be lodged against a person at the time of the arrest, only one arrest is counted for each time the person is taken into custody.

North Dakota law enforcement agencies reported 29,372 arrests in 2004. A total of 30,334 arrests was reported in 2003.

In 2004, nearly 22 percent of total arrests were arrests of juveniles.

Approximately 70 percent of the total were arrests of males.

Arrests for the crime index offenses of murder/non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny/theft and motor vehicle theft comprised 8.9 percent of the total reported arrests. Of the 2,613 reported arrests for crime index offenses, 41 percent were arrests of juveniles.

The total of 11,483 reported arrests for DUI and liquor law violations represents 39.1 percent of the total arrests reported in the state of North Dakota in 2004. Arrests for DUI increased from 4,854 in 2003 to 5,766 in 2004. Liquor law violation arrests decreased 18 percent from 6,969 in 2003 to 5,717 reported in 2004.

Nearly 83 percent of total arrests were white; about 14 percent were Native American.

These statistics are provided by local law enforcement agencies that contribute to the North Dakota UCR program. No arrest figures for reservations in the state are included in these totals. Tribal law enforcement agencies do not participate in the state UCR program.

UCR OFFENSE DEFINITIONS

UNIFORM CRIME REPORTING OFFENSE DEFINITIONS

Offenses in Uniform Crime Reporting are divided into two groups designated as Part I and Part II crimes. Information on the number of Part I offenses known to law enforcement, the number cleared by arrest or exceptional means, and the number of persons arrested is reported monthly. Arrest data are reported for Part I and Part II offenses. The Crime Index is composed of offenses 1-7 with the exception as noted in item 1 below.

<u>NOTE</u>: The classifications of these offenses for UCR reporting purposes are based on law enforcement investigation as opposed to determination by a court, medical examiner, jury, or other judicial hearing.

PART I OFFENSES:

1. CRIMINAL HOMICIDE

a. Murder and Non-Negligent Manslaughter

The willful (non-negligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) the killing of a felon by a law enforcement officer in the line of duty, and (2) the killing of a felon by a private citizen.
